ABOUT US

Astris Lifecare offers an extensive and innovative range of products for the safe management and care of patients in the hospital, medical and other clinical environments. Our products are developed and sourced locally, globally and include specialised hospital beds, pressure management, pain relief and facility service equipment, medical equipment and carts, monitoring and patient care equipment, patient handling solutions, bathroom and mobility products, healthcare furniture and orthopaedic seating. Our large stock holding ensures equipment is delivered promptly and efficiently.

Astris Lifecare is certified to global quality standards ISO 9001:2015, demonstrating our commitment to quality management, superior service, customer satisfaction and support. Our experienced product specialists, trained consultants and friendly customer care team provide exceptional advice, training and solutions to meet all your equipment requirements.

Our trained and dedicated 'Hospital Care Team' is committed to meeting the diverse and rigorous needs of this dynamic yet ever-changing healthcare sector. By working with healthcare professionals and carers, we are able to develop and source the very best in hospital equipment and products that exceed patient care expectations so you can care for your patients with absolute confidence.

Astris Lifecare – equipped to empower.
