Ave 2 Birthing Bed

reddot design award
winner 2017

Choice of birthing positions

The AVE 2 birthing bed brings expectant mothers maximum safety and comfort. Thanks to the AVE 2, the birth takes place naturally according to their expectations. For healthcare staff the bed is a reliable and practical tool which improves the quality and facilitates the care of the woman in labour at all stages of birth. It creates a feeling of a pleasant and safe environment for the woman in labour and family members.

- Attractive and functional design at first sight
- Women in labour can freely choose their birthing position

Features

High adjustment

Innovative telescopic solution provides extra low height for accessing the bed safely and extra height for treatment.

Retractable foot section

Simple swivel mechanism to hide the foot section which is fast and easy for delivery. It remains attached to bed, no storage on the floor.

Legrests

The firm conception of legrests enables the care team to respond very quickly and effectively to different situations which may occur during the delivery.

Independent seat tilting

The unique oval shape creating space needed for perineal access fits closely to the birthing tub minimizing transfer gaps.

Siderails

Side rails with control panel easily integrated and concealable when transferring patients from one bed to another. Silent and easy turning with one hand. No additional space needed beside the bed. It serves as support to help patients sit up.

Simple control

Integrated control panel with clear pictograms and symbols for woman in labour and nursing staff.

Hygiene and safety

High hygienic standard and compact construction of particular sections of the rest area and the plastic cover of the bed base reduce the time needed for the cleaning of the bed.

Ave 2 Birthing Bed

Technical parameters	
Total length of the lying area	2122 mm
Minimum length in the default setting	1570 mm
Full width	980 mm
Castor size	150 mm
Minimum height	600 mm
Maximum height	1050 mm
Back section	-10°/+70°
Seat section	0°/+18,5°
Trendelenburg position	0°/-10°
Leg rests vertical	0°/+135°
Leg rests horizontal	0°/+60°
Foot section adjustment angle	0°/-22°
Maximum patient load	240 kg
Overall product weight	245 kg
Electric parameters	
Batteries – back-up	24V/1.2 Ah
Voltage – input	230 V
Motor voltage	24 V
Ingress protection of the birthing bed	IPX4
Device class I.	
Classification of applied parts B	
Features	
Trendelenburg and CPR	
Extra battery backup	
ABS easily disinfect	
Lockout Control	
No scissor-lift column system	
Central brake easy to access	
Easy transport with directional castor and pushing handles	
Removable headboard for anesthesiologist (optional)	
Nurse Call (optional)	
Tilting holders for IV pole	
Hygiene and safety	
Bacterial static leather	
Seamless upholstery	
Compact and separate space	
Electrostatically painted with epoxy powder	
Coating against corrosion
